

## Poor Prepper planning produces perilous predicament – Nov 22, 2014

Robotic enemies - part 1

TV shows such as “Doomsday Preppers” on the National Geographic channel ([http://en.wikipedia.org/wiki/Doomsday\\_Preppers](http://en.wikipedia.org/wiki/Doomsday_Preppers)) have these preppers display their preparations for various disasters.

Bad idea. King Hezekiah showed Babylonian envoys all his wealth, preparations & security provisions. The prophet Isaiah told King Hezekiah that all that he showed the Babylonians would be taken away.

RSV 2 Kings 20:12-18

12 At that time Merodach-baladan the son of Baladan, king of Babylon, sent envoys with letters and a present to Hezekiah; for he heard that Hezekiah had been sick.

13 And Hezekiah welcomed them, and he showed them all his treasure house, the silver, the gold, the spices, the precious oil, his armory, all that was found in his storehouses; there was nothing in his house or in all his realm that Hezekiah did not show them.

14 Then Isaiah the prophet came to King Hezekiah, and said to him, "What did these men say? And whence did they come to you?" And Hezekiah said, "They have come from a far country, from Babylon."

15 He said, "What have they seen in your house?" And Hezekiah answered, "They have seen all that is in my house; there is nothing in my storehouses that I did not show them."

16 Then Isaiah said to Hezekiah, "Hear the word of the Lord:

17 Behold, the days are coming, when all that is in your house, and that which your fathers have stored up till this day, shall be carried to Babylon; nothing shall be left, says the Lord.

18 And some of your own sons, who are born to you, shall be taken away; and they shall be eunuchs in the palace of the king of Babylon."

People will remember in a disaster that you have “stuff” that they need and you will be highly sought after by the unprepared masses.

Several persons featured on the show have been arrested by the police because the police are also watching the show. In times of disasters, you don't want anyone except those whom you have preselected to come into your shelter.

UnChristian Behavior!!!

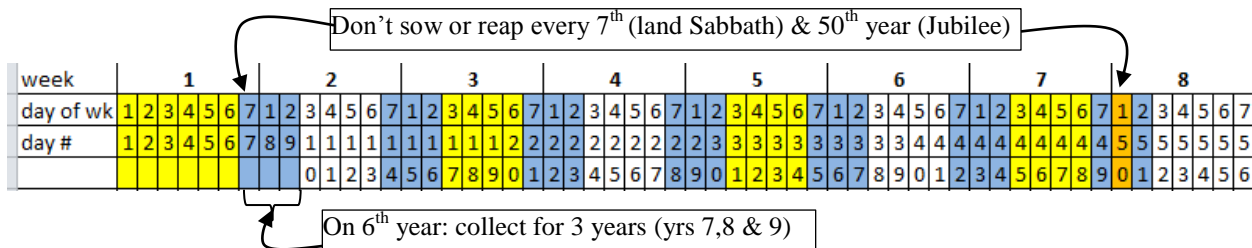

No Biblical Behavior. Jesus Christ has preselected persons for destruction (Jude1:4, Rm9:22) so there people you don't want in your shelter – the people of Jude1:12-13 - worthless persons heading for destruction.

- KJV Jude 1:4 For there are certain men crept in unawares, **who were before of old ordained to this condemnation**, ungodly men, turning the grace of our God into lasciviousness, and denying the only Lord God, and our Lord Jesus Christ.
- KJV Romans 9:22 What if God, willing to shew his wrath, and to make his power known, endured with much longsuffering **the vessels of wrath fitted to destruction:**
- KJV Jude 1:12-13  
12 These are **spots in your feasts of charity**, when they feast with you, feeding themselves without fear: clouds they are without water, carried about of winds; trees whose fruit withereth, without fruit, twice dead, plucked up by the roots;  
13 Raging waves of the sea, foaming out their own shame; wandering stars, **to whom is reserved the blackness of darkness** for ever.

There are clear examples on how and why one should prepare for.

Joseph as the second in command in Egypt ordered the construction of storage units to store 7 years of food for all the Egyptians and those having money to buy food in the famine region (Gen41:17-41). Joseph sheltered in place by storing food for a period of famine.

The mindset of storing food was to be engrained within Israel forever when the land Sabbath was instituted in Lev25:2-5, 11-12, 20-22. The Israelites were to labor for 6 years growing crops and on the 7<sup>th</sup> and 50<sup>th</sup> years they would not sow or harvest anything from the field. They had to have a mindset to store food for 1 year and 2 years when the 7 land Sabbaths conclude with a Jubilee (49<sup>th</sup> and 50<sup>th</sup> year). God commands them to store food for 3 years every 6<sup>th</sup> year so that you may eat from your stockpile until the 9<sup>th</sup> year.

KJV Leviticus 25:2-4

2 Speak unto the children of Israel, and say unto them, When ye come into the land which I give you, then shall the land keep a sabbath unto the Lord.

3 Six years thou shalt sow thy field, and six years thou shalt prune thy vineyard, and gather in the fruit thereof;

4 But in the seventh year shall be a sabbath of rest unto the land, a sabbath for the Lord: thou shalt neither sow thy field, nor prune thy vineyard.

5 That which groweth of its own accord of thy harvest thou shalt not reap, neither gather the grapes of thy vine undressed: for it is a year of rest unto the land.

KJV Leviticus 25:11-12

11 A jubile shall that fiftieth year be unto you: ye shall not sow, neither reap that which groweth of itself in it, nor gather the grapes in it of thy vine undressed.

12 For it is the jubile; it shall be holy unto you: ye shall eat the increase thereof out of the field.

KJV Leviticus 25:20-22

20 And if ye shall say, What shall we eat the seventh year? behold, we shall not sow, nor gather in our increase:

21 Then I will command My blessing upon you in the sixth year, and it shall bring forth fruit for three years.

22 And ye shall sow the eighth year, and eat yet of old fruit until the ninth year; until her fruits come in ye shall eat of the old store.

### What is the mindset of an Israelite Prepper?

- You had to have a storage space to hold all the items that you will be food items.
- You had to have knowledge on how to preserve the items: salting, dehydrating, fermenting, clay jars...
- You had to have the man power to harvest all the items.
- You had to have the land and manpower to sow the items.

We have lost this blessing as a people since most people can't store 3 years of food in their house. They don't know how to sow, harvest and preserve their food for long term and most don't have the land to grow the amount of food needed for 3 years.

### **When is sheltering in place a bad idea and unbiblical?**

It's unbiblical to shelter in place when the government is coming after you. The biblical example of this principle is David's flight from King Saul and King David's flight from his son Absalom. Details of where one should run will be covered after why one should run.

Why should one run and not shelter in place when the government comes after you?  
Waco & Ruby Ridge, Jerusalem 583 BC & Jerusalem 70 AD to name a few.

Life will become very difficult, looking at previous governmental encounters, once you are surrounded. No more supplies coming in and no one leaving. In the Waco standoff the water tanks were machine gunned leaving those inside having to capture rainfall in 5 gallon buckets. Without a sufficient supply of water then poor sanitation and hygiene will cause sickness/disease. Those inside the Waco house had to use the rest rooms in 5 gallon buckets which then raise the question of how to dispose of the waste. If human waste builds up then disease will spread.

Once the government tires of standoff then they will move in and in both instances of Ruby Ridge and Waco: people died.

The Government can hold out longer than you can.

There is another military force that is stronger than those surrounding the Waco house. That army is the army described in Joel.

KJV Joel 1:6 For **a nation is come up upon my land, strong, and without number**, whose teeth are the teeth of a lion, and he hath the cheek teeth of a great lion.

KJV Joel 2:1-11

1 Blow ye the trumpet in Zion, and sound an alarm in my holy mountain: let all the inhabitants of the land tremble: for the **day of the Lord cometh**, for it is nigh at hand;

2 A day of darkness and of gloominess, a day of clouds and of thick darkness, as the morning spread upon the mountains: **a great people and a strong; there hath not been ever the like, neither shall be any more after it, even to the years of many generations.**

3 **A fire devoureth before them; and behind them a flame burneth: the land is as the garden of Eden before them, and behind them a desolate wilderness; yea, and nothing shall escape them.**

4 The appearance of them is as the appearance of horses; and as horsemen, so shall they run.

5 Like the noise of chariots on the tops of mountains shall they leap, like the noise of a flame of fire that devoureth the stubble, as a strong people set in battle array.

6 Before their face the people shall be much pained: all faces shall gather blackness.

7 **They shall run like mighty men; they shall climb the wall like men of war; and they shall march every one on his ways, and they shall not break their ranks:**

8 **Neither shall one thrust another; they shall walk every one in his path: and when they fall upon the sword, they shall not be wounded.**

9 **They shall run to and fro in the city; they shall run upon the wall, they shall climb up upon the houses; they shall enter in at the windows like a thief.**

10 The earth shall quake before them; the heavens shall tremble: the sun and the moon shall be dark, and the stars shall withdraw their shining:

11 And the Lord shall utter his voice before his army: for his camp is very great: for he is strong that executeth his word: for the day of the Lord is great and very terrible; and who can abide it?

Many people over time have commented who this army could be. My guess at this point of time would be that the army that will be coming after you will be partially or fully robotic. How so?

Satellites in space have already and continue to photograph and create detail maps of the earth. Google and other search engines create detailed maps on how to go from one location to another location. The FCC is mandating all cell phones by 2018 to contain a GPS tracking chip (<http://www.businessinsider.com/911-call-tracking-2011-10>). If the government wants to get you then the first thing you need to do is to destroy all your cell phones and any other items that transmit your GPS coordinates. If you don't then you will be surrounded by the militarized robotic army.

Once you know that you have been targeted then you have a very narrow window in which to flee. Mt24:17-18 paints a picture of someone dropping everything and running as fast as they can away from their house not bothering to take anything with them. Imagine if you saw a plane fire a missile towards your house – you will not stopping to pick up anything as you are frantically fleeing as quickly as you can before the missiles explodes.

KJV Mat 24:17-18

- 17 Let him which is on the housetop not come down to take any thing out of his house:  
18 Neither let him which is in the field return back to take his clothes.

This Robotic army in the future will be so advanced that your only have a sliver of time from when they arriving at your GPS coordinates and you escaping before they raise a net are over your house.

The robotic announcements over the last few years is staggering and technological advancement are accelerating. The military's top secret research group DARPA are beyond what has been announced in the news by many decades.

Satelites can be positioned over your house. Aerial drones can be dispatched to fly/hover around your house containing FLIR (forward looking Infared) cameras that can see inside your house and observe people and their movements by their body heat. Drones can also be armed with missiles if you have been marked.

Next a perimeter must be created around your house/property to prevent anyone from entering or leaving. Enter the vertical take off "Black Night Transformer". A 8 rotor plane that can act as a troop transport and also drive on the ground like a bus. This can bring the troops to surround your place.

**U.S. military look into remote controlled 'helicopter truck transformers' that can be sent on rescue missions WITHOUT a driver** (10 January 2014)

It utilizes the vertical take off and landing of a helicopter and couples it with the off road driving capabilities of a truck.

And, what's even better, is that this **robotic warrior is remote controlled.**

<http://www.dailymail.co.uk/news/article-2537584/U-S-military-look-remote-controlled-helicopter-truck-transformers-sent-missions-WITHOUT-driver.html#ixzz3JkrhFgcY>

What are the robotic forces groups that will be constraining you?

Heavy armor - Light armor - Infantry - Patrols - Chuck wagon

**Heavy Armor** – Tanks were used in Waco to break into the house and inject CS gas. This time robotic tanks could be used to do the same in order to pressure the occupants to surrender.

*Killer Robots With Automatic Rifles Could Be on the Battlefield in 5 Years*  
<http://www.wired.com/2013/10/weaponized-military-robots>10/18/13

*Robots armed with automatic weapons, anti-tank missiles and even grenade launchers are marching, er, rolling ever closer to the battlefield now that they've shown they can actually hit what they're supposed to.*

**Light Armor** - I can imagine a herd of these LS3 charging towards you each firing their .50 caliber machine gun mounted on their side.

LS3 - Legged Squad Support Systems [http://www.bostondynamics.com/robot\\_ls3.html](http://www.bostondynamics.com/robot_ls3.html)

*LS3 is a rough-terrain robot designed to go anywhere Marines and Soldiers go on foot, helping carry their load. Each LS3 carries up to 400 lbs of gear and enough fuel for a 20-mile mission lasting 24 hours.*

**Infantry** – Following the calvary is the infantry. Robot humanoid carrying weapons will complete the perimeter and as long as they remain – no terrestrial help will be able to break thru. The Atlas seems to be more ready for terminator style combat duty. The PETMAN shows the flexibility of the robot.

Atlas - <http://techgenmag.com/2014/10/24/atlas-robot-gets-closer-to-walking-like-a-human/>

*Atlas is a high mobility, humanoid robot designed to negotiate outdoor, rough terrain. Atlas can walk bipedally leaving the upper limbs free to lift, carry, and manipulate the environment. In extremely challenging terrain, Atlas is strong and coordinated enough to climb using hands and feet, to pick its way through congested spaces.*

PETMAN - [http://www.bostondynamics.com/robot\\_petman.html](http://www.bostondynamics.com/robot_petman.html)

*PETMAN is an anthropomorphic robot designed for testing chemical protection clothing. Natural agile movement is essential for PETMAN to simulate how a soldier stresses protective clothing under realistic conditions.*

**Patols** - No defenses are complete without guard dogs patrolling the perimeter. The Cheetah will outrun any person on foot if one attempts to create a diversion and escape another way. In 2Kings25:4-7 King Zedekiah tried to flee from the Babylonian encirclement around Jerusalem. He failed in the attempt as Babylonian horses were much swifter than those of Jerusalem.

Cheetah - [http://www.bostondynamics.com/robot\\_cheetah.html](http://www.bostondynamics.com/robot_cheetah.html)

*The Cheetah robot is the fastest legged robot in the World, surpassing 29 mph, a new land speed record for legged robots*

**Chuck wagon** - All military forces need to be fed. All these robotic machines need to be fed as well. What could they feed on? Biomass includes animals and humans. I'm sure the military will allow all their robots to run out of power and compromise the mission by not feeding dead enemy soldiers into the EATR.

### **Energetically Autonomous Tactical Robot (EATR) Project**

<http://www.roboticstechnologyinc.com/index.php/EATR>

The purpose of the Energetically Autonomous Tactical Robot (EATR)<sup>TM</sup> (patent pending) project is to develop and demonstrate an autonomous robotic platform able to perform long-range, long-endurance missions without the need for manual or conventional re-fueling, which would otherwise preclude the ability of the robot to perform such missions. The system obtains its energy by foraging – engaging in **biologically-inspired, organism-like, energy-harvesting behavior which is the equivalent of eating. It can find, ingest, and extract energy from biomass in the environment (and other organically-based energy sources)**, as well as use conventional and alternative fuels (such as gasoline, heavy fuel, kerosene, diesel, propane, coal, cooking oil, and solar) when suitable.

The military will never implement these robots in this manner – right? Wrong. Army & Marine Corps are in initial stage of replacing troops. The Air Force and other branches are using aerial drones.

### **US Army Studying Replacing Thousands of Grunts with Robots** Jan. 20, 2014

<http://www.defensenews.com/article/20140120/DEFREG02/301200035/US-Army-Studying-Replacing-Thousands-Grunts-Robots>

**WASHINGTON** — The postwar, sequestration-era US Army is working on becoming “a smaller, more lethal, deployable and agile force,” according to Gen. Robert Cone, head of the service’s Training and Doctrine Command.

But just how much smaller might come as a surprise.

During remarks at the Army Aviation Symposium in Arlington, Va., on Jan. 15, Cone quietly dropped a bomb. The Army, he said, is considering the feasibility of **shrinking the size of the brigade combat team from about 4,000 soldiers to 3,000 over the coming years, and replacing the lost soldiers with robots and unmanned platforms.**

The Robots have a capability to read a preexisting map of the area and to learn, update and create a new map of the surrounding area.

***Rise of the Robot Security Guards*** - Startup Knightscope is preparing to roll out human-size robot patrols. November 13, 2014 <http://www.technologyreview.com/news/532431/rise-of-the-robot-security-guards/>

*GPS and a laser ranging instrument help the robots find their way around their patrol area and avoid obstacles when on duty. When they're taken to a new place—such as the Microsoft campus where they were patrolling earlier this month before Knightscope cofounder and CEO William Santana Li spoke at a tech event—a human with a wireless controller shows the robot around to determine the area it will patrol and let it learn about its surroundings. “You give it a base map and then it starts building from that,” Stephens says.*

It's been stated over and over that humans will always have the last authorization before the robot kills a person but that is false as the military is pushing forward to having robots to decide for themselves whether a person should be killed.

**Military drones set to get stronger chemical weapons and could soon make their OWN decisions during missions** - 2 January 2014

<http://www.dailymail.co.uk/sciencetech/article-2532800/Military-drones-set-stronger-chemical-weapons-soon-make-OWN-decisions-missions.html#ixzz3Jkv3axZB>

Its plans include **drone-bombs that can hunt in 'swarms' from a mothership**

Next-generation unmanned aircraft will likely be equipped with better sensors and navigational equipment, plus superior autonomous systems

**The weapons dropped by more traditional drones are also set to get more deadly** under the plans, as researchers are working on 'energetic nanoparticles' with a larger surface areas so that the chemicals within the ammunition reach faster and create a more powerful explosion.

The technologies combined are intended to help the U.S. military be 'more effective through greater automation and greater performance,' the report says.

----

**Why America Wants Drones That Can Kill Without Humans** - October 8, 2013

<http://www.defenseone.com/technology/2013/10/ready-lethal-autonomous-robot-drones/71492/>

Scientists, engineers and policymakers are all figuring out ways drones can be used better and more smartly, more precise and less damaging to civilians, with longer range and better staying power. One method under development is by increasing autonomy on the drone itself.

**Eventually, drones may have the technical ability to make even lethal decisions autonomously: to respond to a programmed set of inputs, select a target and fire their weapons without a human reviewing or checking the result.**

To make getting away worse is that all these robots will be connected together via a Robotic World wide web which will share information so one may outrun one robot but the next one will recognize you and come after you.

**'Robotic World Wide Web' makes life easier for machines**

<http://www.telegraph.co.uk/technology/news/10571671/Robotic-World-Wide-Web-makes-life-easier-for-machines.html>

\_14 Jan 2014

The first demonstration of a "World Wide Web for robots" that allows machines to share information and learn from each other will take place this week in the Netherlands.

Cloud-based RoboEarth aims to help robots benefit from the experience of other machines. For instance, if one robot has spent time developing an accurate map of a room it can upload the data so another machine entering it for the first time has a navigational head start.

It can also store information on how to complete certain tasks or learned patterns for object recognition. This means that **once one robot has sufficient experience of identifying employees' faces at a certain company, all other RobotEarth robots could be given the same ability almost instantly.**

Using the same tricks to get away will be difficult as well as these robots learn from their mistakes and when they share those experiences with other robots then these robots will know almost all escape tricks of humans.

## Brainlike Computers, Learning From Experience

[http://www.nytimes.com/2013/12/29/science/brainlike-computers-learning-from-experience.html?\\_r=0](http://www.nytimes.com/2013/12/29/science/brainlike-computers-learning-from-experience.html?_r=0) December 28, 2013

*PALO ALTO, Calif. — Computers have entered the age when they are able to learn from their own mistakes, a development that is about to turn the digital world on its head.*

*The first commercial version of the new kind of computer chip is scheduled to be released in 2014. Not only can it automate tasks that now require painstaking programming — for example, moving a robot's arm smoothly and efficiently — but it can also sidestep and even tolerate errors, potentially making the term "computer crash" obsolete. ...*

*In coming years, the approach will make possible a new generation of artificial intelligence systems that will perform some functions that humans do with ease: see, speak, listen, navigate, manipulate and control. That can hold enormous consequences for tasks like facial and speech recognition, navigation and planning, which are still in elementary stages and rely heavily on human programming.*

*Designers say **the computing style can clear the way for robots that can safely walk and drive in the physical world**, though a thinking or conscious computer, a staple of science fiction, is still far off on the digital horizon. ...*

What is even more creepy is the advent of realistic looking humanoids. These could be used to infiltrate a group, get close to a subject and take them down or arrest them.

*Unable, for now, to use some of the advanced artificial intelligence (AI), face and voice recognition systems that some Japanese robots coming on the market now use, Asuna relies on a camera rigged behind her that is relayed to a remote human controller to give her life.*

*This so-called tele-presence enables Asuna to come alive, taking on the operator's personality.*

*A fully independent version of the geminoid is expected in 10 years using all the above technologies to **make her virtually indistinguishable from humans** says Mr. Takeshi Mita, CEO of A-Lab in Tokyo, the company working with Prof. Ishiguro to make Asuna and her kind commercial.*

*'We already have 20 year's experience making androids in the lab. So in 10 years we will marry AI and life like geminoids in perfection,' he told MailOnline.*

*'We had been focusing on perfecting her skin, facial expressions, and so on, so for now Asuna is really just a head. Now we are working on her arms and torso to give very natural, fluid body language.'*

<http://www.dailymail.co.uk/news/article-2841273/The-hyper-real-robots-replace-receptionists-pop-stars-sex-dolls-Unnervingly-human-androids-coming-future-near-you.html#ixzz3Jkoa2fow>

Governments around the world are building a robotic race that will be automated and able to make life or death decisions. They are without a soul or conscience. Robots with artificial intelligence poses the biggest threat to mankind according to Tesla chief executive Elon Musk:

**Elon Musk: 'With artificial intelligence we are summoning the demon.'**

<http://www.washingtonpost.com/blogs/innovations/wp/2014/10/24/elon-musk-with-artificial-intelligence-we-are-summoning-the-demon/>

I think we should be very careful about artificial intelligence. If I were to guess like what our biggest existential threat is, it's probably that. So we need to be very careful with the artificial intelligence. Increasingly scientists think there should be some regulatory oversight maybe at the national and international level, just to make sure that we don't do something very foolish. With artificial intelligence we are summoning the demon. In all those stories where there's the guy with the pentagram and the holy water, it's like yeah he's sure he can control the demon. Didn't work out.

One may say this is far off in the future but it's not.

A Predator Drone were used in 2011 to arrest a family in North Dakota by flying overhead and using a FLIR camera to look within the house to detect when weapons were put down. Once enough weapons were put down the police swarmed into the house.

***Meet the North Dakota family of anti-government separatists busted by cops using a Predator drone... after 'stealing six cows' - 13 December 2011***

<http://www.dailymail.co.uk/news/article-2073248/Local-cops-used-Predator-drone-arrest-North-Dakota-farm-family-stealing-6-cows.html#ixzz3Jl536PuE>

*Meet the Brossarts, a North Dakota family deemed so dangerous that the local sheriff needed unleashed an unmanned Predator drone to help bring them in.*

*The Brossart's alleged crime? They wouldn't give back three cows and their calves that wandered onto their 3,000-acre farm this summer....*

*The same aerial vehicles used by the CIA to track down and assassinate terrorists and militants in Pakistan and Afghanistan are now being deployed by cops to spy on Americans in their own backyards.*

Will the army of Joel chapter 2 be comprised of a Robotic army? Maybe, maybe not.

How should one flee from an enemy that is trying to arrest or kill you?

One has to look for examples in the bible

David was warned by King Saul's son, Jonathan, that King Saul wanted David dead – 1Sam19:2. Jonathan told David to hide in a secret place

**KJV 1Sa 19:2** But Jonathan Saul's son delighted much in David: and Jonathan told David, saying, Saul my father seeketh to kill thee: now therefore, I pray thee, take heed to thyself until the morning, and abide in a secret place, and hide thyself:

This doesn't mean hiding in your doomsday prepper cave on your property because King Saul went to David's house to kill him

**KJV 1Sa 19:11-12**

**11** Saul also sent messengers unto David's house, to watch him, and to slay him in the morning: and Michal David's wife told him, saying, If thou save not thy life to night, to morrow thou shalt be slain.

**12** So Michal let David down through a window: and he went, and fled, and escaped.

Fleeing and hiding in a single spot is also foolish since time after time someone would inform King Saul of David's location and troops would be dispatched to go after David. David was always on the move.

**KJV 1Sa 19:19-20**

**19** And it was told Saul, saying, Behold, David is at Naioth in Ramah.

**20** And Saul sent messengers to take David:...

The government will always go after your family if it can't get to you in order to compel you to turn yourself over. David took measures to protect his father and his mother by leaving them with the king of Moab.

KJV 1Sa 22:1-5

- 1 David therefore departed thence, and **escaped to the cave Adullam**: and when **his brethren** and **all his father's house** heard *it*, **they went down thither to him**.
- 2 And every one *that was* in distress, and every one that *was* in debt, and every one *that was* discontented, gathered themselves unto him; and he became a captain over them: and there were with him about four hundred men.
- 3 And **David went thence to Mizpeh of Moab: and he said unto the king of Moab, Let my father and my mother, I pray thee, come forth, and be with you, till I know what God will do for me**.
- 4 And he brought them before the king of Moab: and they dwelt with him all the while that David was **in the hold**.
- 5 And the prophet Gad said unto David, Abide not in the hold; depart, and get thee into the land of Judah. Then David departed, and came into the **forest of Hareth**.

When David fled the first thing that he sought out was a weapon since David followed the advice of Mt24:17 of fleeing from his house and not stopping to take anything. David followed the advice of Jesus in Luke22:36 of arming himself with a sword.

KJV 1Sa 21:8 And **David said** unto Ahimelech, And is there not here under thine hand spear or sword? for **I have neither brought my sword nor my weapons with me**, because the king's business required haste.

KJV Luk 22:36 Then said he unto them, **But now, he that hath a purse, let him take it, and likewise his scrip: and he that hath no sword, let him sell his garment, and buy one**.

King Saul killed all those who were friendly with David. King Saul killed 85 priests when David fled to Ahimelech to get a sword. King Saul thought Ahimelech was helping David.

KJV 1Sa 22:17 And the king said unto the footmen that stood about him, Turn, and **slay the priests of the LORD**; because their hand also *is* with David, and because they knew when he fled, and did not shew it to me. But the servants of the king would not put forth their hand to fall upon the priests of the LORD.

KJV 1Sa 22:18 And the king said to Doeg, Turn thou, and fall upon the priests. And **Doeg the Edomite turned, and he fell upon the priests, and slew on that day fourscore and five persons** that did wear a linen ephod.

The greatest most powerful object that David received was from Abiathar, Ahimelech's son, who survived the slaughter by King Saul. Abiathar brought an Ephod with him when he fled. The Ephod could only be worn by a priest and it was used to speak to God and to receive an answer from God.

David used that Ephod in order to know where to move in order to stay away from King Saul network of spies and military.

1Sa 22:20 And one of the sons of Ahimelech the son of Ahitub, named **Abiathar, escaped, and fled after David**.

1Sa 22:21 And Abiathar shewed David that Saul had slain the LORD'S priests.

1Sa 22:22 And David said unto Abiathar, I knew *it* that day, when Doeg the Edomite *was* there, that he would surely tell Saul: I have occasioned *the death* of all the persons of thy father's house.

1Sa 23:6 And it came to pass, when **Abiathar** the son of Ahimelech fled to David to Keilah, *that he came down with an ephod in his hand*.

- 1Sa 23:7 And it was told Saul that David was come to Keilah. And Saul said, God hath delivered him into mine hand; for he is shut in, by entering into a town that hath gates and bars.
- 1Sa 23:8 And Saul called all the people together to war, to go down to Keilah, to besiege David and his men.
- 1Sa 23:9 And David knew that Saul secretly practised mischief against him; and he said to Abiathar the priest, Bring hither the ephod.
- 1Sa 23:10 Then said David, O LORD God of Israel, thy servant hath certainly heard that Saul seeketh to come to Keilah, to destroy the city for my sake.
- 1Sa 23:11 Will the men of Keilah deliver me up into his hand? will Saul come down, as thy servant hath heard? O LORD God of Israel, I beseech thee, tell thy servant. And the LORD said, He will come down.
- 1Sa 23:12 Then said David, Will the men of Keilah deliver me and my men into the hand of Saul? And the LORD said, They will deliver thee up.
- 1Sa 23:13 Then David and his men, which were about six hundred, arose and departed out of Keilah, and went whithersoever they could go.

David with the Ephod was directed to hide in the woods, caves and mountains:

#### KJV 1Sa 23:19-23

- 19 Then came up the Ziphites to Saul to Gibeah, saying, Doth not David hide himself with us in strong holds in the wood, in the hill of Hachilah, which is on the south of Jeshimon?
- 20 Now therefore, O king, come down according to all the desire of thy soul to come down; and our part shall be to deliver him into the king's hand.
- 21 And Saul said, Blessed be ye of the LORD; for ye have compassion on me.
- 22 Go, I pray you, prepare yet, and know and see his place where his haunt is, and who hath seen him there: for it is told me that he dealeth very subtilly.
- 23 See therefore, and take knowledge of all the lurking places where he hideth himself, and come ye again to me with the certainty, and I will go with you:...

#### KJV 1Sa 24:1-2

- 1 And it came to pass, when Saul was returned from following the Philistines, that it was told him, saying, Behold, David is in the wilderness of Engedi.
- 2 Then Saul took three thousand chosen men out of all Israel, and went to seek David and his men upon the rocks of the wild goats.

#### KJV 1Sa 26:1-2

- 1 And the Ziphites came unto Saul to Gibeah, saying, Doth not David hide himself in the hill of Hachilah, which is before Jeshimon?
- 2 Then Saul arose, and went down to the wilderness of Ziph, having three thousand chosen men of Israel with him, to seek David in the wilderness of Ziph.

David also ensured that the places that they stayed could be well guarded and would not be death traps (one way in or out). The bible called them strong holds.

1Sa 23:14 And David abode in the wilderness in strong holds, and remained in a mountain in the wilderness of Ziph. And Saul sought him every day, but God delivered him not into his hand.

1Sa 23:29 And David went up from thence, and dwelt in strong holds at Engedi.

1Sa 24:3 And he came to the sheepecotes by the way, where was a cave; and Saul went in to cover his feet: and David and his men remained in the sides of the cave.

Another principle is don't go lawless when you are on the run. Don't break into a house or store and steal food or supplies. You may say "my family is starving! I need food so they won't die." David had to feed 600 men – he had much more mouths to feed than your family.

David sent 10 men to greet Nabal and ask for some meat from his flock – not stealing it from him. David and his men dwelt near Nabal’s shepherds and acted as a wall of protection for Nabal’s flock.

1Sa 25:2 And *there was* a man in Maon, whose possessions *were* in Carmel; and the man *was* very great, and he had three thousand sheep, and a thousand goats: and he was shearing his sheep in Carmel.

1Sa 25:3 Now the name of the man *was* Nabal; and the name of his wife Abigail: and *she was* a woman of good understanding, and of a beautiful countenance: but the man *was* churlish and evil in his doings; and he *was* of the house of Caleb.

1Sa 25:4 And David heard in the wilderness that Nabal did shear his sheep.

1Sa 25:5 And David sent out ten young men, and David said unto the young men, Get you up to Carmel, and go to Nabal, and greet him in my name:

1Sa 25:6 And thus shall ye say to him that liveth *in prosperity*, Peace *be* both to thee, and peace *be* to thine house, and peace *be* unto all that thou hast.

1Sa 25:7 And now I have heard that thou hast shearers: now thy shepherds which were with us, we hurt them not, neither was there ought missing unto them, all the while they were in Carmel.

1Sa 25:8 Ask thy young men, and they will shew thee. Wherefore let the young men find favour in thine eyes: for we come in a good day: give, I pray thee, whatsoever cometh to thine hand unto thy servants, and to thy son David.

1Sa 25:15 But *the men were* very good unto us, and we were not hurt, neither missed we any thing, as long as we were conversant with them, when we were in the fields:

1Sa 25:16 *They were* a wall unto us both by night and day, all the while we were with them keeping the sheep.

1Sa 25:17 Now therefore know and consider what thou wilt do; for evil is determined against our master, and against all his household: for he *is such* a son of Belial, that *a man* cannot speak to him.

1Sa 25:18 Then Abigail made haste, and took two hundred loaves, and two bottles of wine, and five sheep ready dressed, and five measures of parched *corn*, and an hundred clusters of raisins, and two hundred cakes of figs, and laid *them* on asses.

### How should one prepare?

- One should always be preparing to store 3 years of food to last a land fast or jubilee.
- One should also be prepared to leave their house at a moment’s notice and dwell as a nomad in the woods, mountains and caves at strong holds in order to avoid a military force.
- One should have the survival skills to be able to live out in the wilderness – and thrive.
- One should be fully armed and being led by the Holy Spirit.
- One needs to be in the body of Christ to be led by the Holy Spirit and baptism is the only way to be placed into the body – Gal3:27

Gal 3:27 For as many of you as have been *baptized into Christ* have put on Christ.

If the extent of one’s preparation is just stockpiling stuff at one’s house then they are not prepared for the biblical persecution which will come from them by the government.

Be biblically baptized, be saved and be led by the Holy Spirit.

Regards,
